BTR Show Prep for 6/27/2010

Diana Weiner: House Plants

Greeting	I'm Missa Dixon And this is Missa's Urban Home on Blog Talk Radio The show where we are changing lives one extraordinary topic at a time.
Today's show	Today's show I welcome Diana Weiner back to the show our master gardener in residence. Today she and I are going to tell us all how to have great indoor gardens. Because I know I need lots of help with that.
Weather	Weather...always a topic here on Missa's Urban home. I had a question about why I do the weather on a podcast that anyone around the world can download at anytime. Why would I always talk about that day's weather? Very simple. I'm an Earth based kind of girl – a Pagan at heart even though I am now a practicing Buddhist. The changing of the season is VERY important to me to mark time in my life and tell myself what I'm supposed to be doing and how I'm supposed to be doing it. Having shared that, the weather outside is hot and has been VERY hot. Like over 100 degrees hot in the Memphis area.
Foo Dog Mafia	Yep got the toy!
Thankful Moment	Having Friday off.
Pointing moment	None
Upcoming Shows	July 4th (Next week) – Lane Jennings and I will be celebrating everyone's independence by talking about the power of positive thought. July 11th – David Blalock will be back with me to talk about his book now being made into a movie. I'm so excited for him and I can't wait to talk with him. July 18th – Author Jackie Gamber will be here talk to talk about her book <i>Redheart</i> .

Interview Questions:

Diana Weiner: House plants

- ❁ Thank you for coming back on the show. Lots of people had questions about house plants. I can't believe the topic is so important to people. I have gotten lots of questions so hold on everybody we will try to get to them all.
